

# WATERPROOF FITTINGS

Project:

Type:

Catalog Number: **XFF-300, XFF-400, XFF-500, XFF-700**

System Component: **FITTING**

**NOTE:** Drawings are not to scale

**DESCRIPTION:** The Lumenyte " " Series waterproof fitting prevents water from reaching the illuminator when it is located at a lower elevation than the water level or when the optical fiber is incorporated in a pressurized water line. Typically the XFF is installed on the fiber and PVC conduit near the illuminator. One end is glued into the corresponding PVC coupling (supplied by other); the other end tightens down onto the fiber directly. This fitting is designed for use with of the SEL300 (XFF300), SEL400 (XFF400), SEL500 (XFF500), SEL700 (XFF700). Use 1" PVC conduit for SEL300; SEL400. Use 1 1/2" PVC conduit for SEL500, SEL700.
